

India Power wins the INDIA SMART GRID FORUM (ISGF) Innovation Award 2018.

India Smart Grid Forum (ISGF) has launched the ISGF Innovation Awards intended to recognize individuals and organizations from public and private utilities, service providers, urban local bodies, technology companies, researchers and academia that have set new benchmarks in Smart Grid and Smart City domains.

ISGF Innovation Awards recognizes individuals and organizations to encourage scaling up of ground breaking innovations. The prestigious Awards will showcase the globally growing smart ecosystem and foster global partnerships

CEO Mr Sanjeev Seth receives the award in the award ceremony in New Delhi last month.
