- 5.0 The anomalies / mistakes as pointed out by IPCL and the decision of the Commission are given below:
- I) **Totaling mistakes noticed in Paragraph 5.2 in Page 74 of the MYT order:**

Commission's observation:

This is a typographical error / mistake. This has no impact on ARR. The paragraph 5.2 has

In Re review of the tariff order dated 21st July, 2016 passed by the Commission in case no. TP-58/13-14 in respect of India Power Corporation Limited for the years 2014 – 2015, 2015 – 2016 and 2016 – 2017 emerged upon scrutiny of the said tariff order.

been amended accordingly.

II) Omission to give effect of the arrear impact from past APR Orders:

IPCL's submission:

"The effect of admitted arrear of APR orders for the financial year 2010-11 and 2011-12, the total of which amounting to Rs 28 Crores has not been factored into the tariff determined for the period of FY 2014-15. There is no discussion on this aspect in the impugned MYT Order. Therefore, Tariff schedule for 2014-15 should be revised after incorporating arrear impact of APR Orders of 2010-11 for 2014-15 should be revised after incorporating arrear impact of APR Orders of 2010-11 and 2011-12 in 2014-15 Tariff Schedule".

Commission's observation:

Observation of IPCL is correct. The impact of APR orders for 2010-11 and 2011-12 have been considered to be adjusted in revenue recoverable through tariff, capacity charge and fixed charge in 2016 – 2017. The paragraphs 5.2, 5.3, 5.4, 6.1 and 8.1 of the order dated 21.07.2016 has been amended accordingly.

III) Omission to give effect to the arrear impact of APR Order 2012-13.

IPCL's submission:

"It is found in Para 6.1 (Page No. 77) in Chapter 6 of the Tariff Order "...The Commission in accordance with the Tariff Regulation as determined the aggregate revenue requirement for each year of the fourth control period covering the years 2014-15 to 2016-17 and the revenue recoverable through tariff during year 2014-15 after adjusting the amount recoverable from the consumers as determined in the annual Performance Review for the year 2012-13 with the ARR determined for the year 2014-15". The petitioner has not found any such APR adjustment arising out of APR Order for the year 2012-13 with the ARR fixed for 2014-15 nor any copy of APR Order has been received by the petitioner.

The Tariff Schedule for the year 2014-15 should therefore be recalculated after inclusion of APR adjustment of 2010-11, 11-12 and 12-13. A certified true copy of APR Order for the

In Re review of the tariff order dated 21st July, 2016 passed by the Commission in case no. TP-58/13-14 in respect of India Power Corporation Limited for the years 2014 – 2015, 2015 – 2016 and 2016 – 2017 emerged upon scrutiny of the said tariff order.

year 2012-13 should also be sent to the petitioner for its perusal. As an alternative, it is humbly requested that the Hon'ble Commission may for the time being include the effect of APR Order for 2010-11 and 2011-12 with the ARR determined for the year 2014-15 and suitably modify the language of the Para 6.1 of the Tariff Order".

Commission's observation:

APR order for 2012-13 has not been issued. The paragraph 6.1 of the tariff order dated 21.07.2016 has been amended accordingly. APR adjustments for 2010-11 and 2011-12 will be considered in ARR for 2016-17.

IV) Mistake in Energy Balance Statement:

IPCL's submission:

"The petitioner has detected the following mistake in computation of Energy Balance as per Paragraph 3.4 of the Order pertaining to year 2014-15:

Paragraph 3.4 (Energy Balance)		Figures in MU		
Sl. No.	Particulars	As Admitted		
		2014-15	2015-16	2016-17
1	Ex-bus energy from generation	35.12	80.41	80.41
2	Energy purchase from WBSEDCL	136.74	76.08	32.72
3	Energy purchase from DVC	728.99	700.00	753.91
4	Energy from WBGEDCL	0.55	1.56	1.56
5	Total Energy Available (1+2+3+4)	901.40	858.05	868.05
6	Energy Sale to Consumer	823.15	810.00	820.00
7	Energy for Own Consumption	2.48	3.00	3.00
8	Energy Sale to WBSEDCL	54.92	-	-
9	Total Sale of Energy (6+7+8)	880.54	813.00	823.00
10	Distribution Loss%	2.46	5.25	5.25
11	Distribution Loss as per our calculation	22.17	45.05	45.60
12	As calculated in Tariff Order	20.86	45.05	45.60
	Difference (12-11)	1.31	-0.00	0.00

In addition to above clerical error in the energy balance calculation, there is an error in principle also by taking into consideration the actual distribution loss % and actual own consumption in the year 2014-15. Energy Balance Statement in Tariff Order for the year 2014-15 should have been calculated by taking into account the normative loss of 5.25%

In Re review of the tariff order dated 21st July, 2016 passed by the Commission in case no. TP-58/13-14 in respect of India Power Corporation Limited for the years 2014 – 2015, 2015 – 2016 and 2016 – 2017 emerged upon scrutiny of the said tariff order.

and normative own consumption of 3 MU as is done in the case of auxiliary consumption of generating plant which is taken as 10%. Any gain sharing as per regulation should be considered at the time of APR adjustment. Therefore, energy balance calculation for the year 2014-15 is not in consistent with the principle followed in 2015-16 and 2016-17 which therefore according to us should be revised".

Commission's observation:

The actual distribution loss in MU (20.86 MU) for the year 2014-15 has been considered in the order as per submission of IPCL through additional information. The percentage of distribution loss for the year 2014-15 has been computed at 2.46% (after rounding off in two places of decimal) accordingly. The distribution loss for both the years 2015-16 and 2016-17 have been computed on the basis of normative distribution loss of 5.25%. Thus the contention of IPCL is not correct.

V) **Discrepancies observed in approved Tariff Schedule:**

IPCL has raised some errors in the Tariff schedule which are considered. The Tariff Schedules for 2014 – 2015, 2015-16 and 2016-17 are revised accordingly.

VI) **Mistake in calculating power procurement cost from WBSEDCL:**

IPCL's submission:

"The Hon'ble Commission has fixed the power sale rate by WBSEDCL to Licensees in its Order for fourth control period dated 04.03.2015 in Case No. TP-61/13-14. In the said Order, the rate at which WBSEDCL will sale power to IPCL for the year 2016-17 is fixed at Rs. 5.54 / kWh. But in this MYT Order the rate is given as Rs. 5.70 / KWh which is therefore contradictory of its own Order and therefore needs rectification".

Commission's observation:

Observation of IPCL is correct and the same is considered. The power purchase cost as well as the ARR for the years 2015-16 and 2016-17 has been revised accordingly. The power purchase cost as submitted by IPCL through additional information has been

In Re review of the tariff order dated 21st July, 2016 passed by the Commission in case no. TP-58/13-14 in respect of India Power Corporation Limited for the years 2014 – 2015, 2015 – 2016 and 2016 – 2017 emerged upon scrutiny of the said tariff order.

considered for the year 2014 – 2015 and shall remain unchanged. The paragraph 3.7 of the order and the table below the paragraph is amended accordingly.

VII) **Mistake in calculation of Return on Equity (ROE) for the financial year 2015-16:**

IPCL's submission:

"There is an error in calculation of ROE for the financial year in respect of Transmission assets for the financial year 2015-16. The Hon'ble Commission has decided in the Tariff Order that ROE on JK Nagar Transmission system assets will be allowed on a proportionate basis from the date when it is connected to Grid in the year 2015-16. JK Nagar Transmission system assets are operational from 11.12.2015 and Hon'ble Commission has decided to allow ROE for 111 days for the year 2015-16. Equity Component of Transmission system asset determined as per Tariff Order is Rs 2888.40 Lakh.

ROE @ 15.5% for 111 days on Rs. 2888.40 Lakh is calculated as follows:

Rs. 2888.40 Lakh x 15.5% x 111/365 = Rs. 136.15 Lakh.

But in the Order it is wrongly calculated as Rs 68.06 Lakh".

Commission's observation:

The errors have been considered. The computation of ROE has been done accordingly. The paragraph 4.18.1 of order and the table below the paragraph along with Annexure – 4D to the order is amended accordingly.

VIII) **Mistake in Calculation of Income Tax:**

IPCL's submission:

"Income Tax also has not been correctly computed in the Tariff Order. The Hon'ble Commission has decided in the Tariff Order to allow the provisions for payment of Minimum Alternate Tax (MAT) subject to adjustment on the basis of assessment and actual payment

In Re review of the tariff order dated 21st July, 2016 passed by the Commission in case no. TP-58/13-14 in respect of India Power Corporation Limited for the years 2014 – 2015, 2015 – 2016 and 2016 – 2017 emerged upon scrutiny of the said tariff order.

of Tax. The Hon'ble Commission has adopted a rate of 20% in MAT calculation for each of the three years of MYT period. It may kindly be noted that this is not the correct rate of MAT. The Correct MAT rate is given below (when the Book Profit is more than Rs. 10 Crores):

FY 2014-15 = Rate 18.5% + S/Ch 10% of Rate + Cess 3% of (Rate + S/Ch), i.e. 20.9605%.

FY 2015-16 = Rate 18.5% + S/Ch 12% of Rate + Cess 3% of (Rate + S/Ch), i.e. 21.3416%.

FY 2016-17 = Rate 18.5% + S/Ch 12% of Rate + Cess 3% of (Rate + S/Ch), i.e. 21.3416%.

The corrected MAT calculation is given below:

Sl No	Particulars	2014-15				2015-16				2016-17			
		Generation	Transmission	Distribution	Total	Generation	Transmission	Distribution	Total	Generation	Transmission	Distribution	Total
1	Return of Equity as admitted	385.88	-	1,128.39	1,514.27	385.88	136.15	1,172.32	1,694.35	385.88	447.70	1,197.46	2,031.04

3	MAT (Rs. Lakh)	80.88	-	236.52	317.40	82.35	29.06	250.19	361.60	82.35	95.55	255.56	433.46
4	Order (Rs. Lakh)	77.18	-	225.68	302.86	77.18	13.61	234.46	325.25	77.18	89.54	239.49	406.21
5	Difference (Rs. Lakh)	3.70	-	10.84	14.54	5.17	15.45	15.73	36.35	5.17	6.01	16.07	27.25

Commission's observation:

The Commission considered ROE @ 15.5% on admitted equity Base of Generating Assets and Transmission Assets and @ 16.5% on the admitted equity base of distribution assets for the respective years as per provision of regulation 5.6.1 of the Tariff Regulations. Income Tax is allowed separately as per provision of regulation 5.13 of the Tariff Regulation considering MAT @ 20% of ROE. The MAT @ 20% is arrived considering basic rate @ 18.5% plus surcharge @ 5% of basic rate plus cess 3% of basic rate and surcharge. The Commission, however, considers applicable rates of MAT for the concerned years as submitted by IPCL. The paragraphs 4.16.2 and 4.16.3 of the tariff order dated 21.07.2016 have been amended accordingly.

In Re review of the tariff order dated 21st July, 2016 passed by the Commission in case no. TP-58/13-14 in respect of India Power Corporation Limited for the years 2014 – 2015, 2015 – 2016 and 2016 – 2017 emerged upon scrutiny of the said tariff order.

IX) Insurance Premium:

IPCL's submission:

"The Hon'ble Commission has calculated insurance Premium of Distribution Segment for the financial year 2014-15, 2015-16 and 2016-17 as Rs. 26 Lakh, Rs 28 Lakh and Rs. 30 Lakh respectively in annexure-4B (Table 3), Page No. 71. The Hon'ble Commission has also determined Insurance Premium cost of 12 MW Plant for the year 2014-15, 2015-16 and 2016-17 as Rs. 0.09 Lakh, Rs. 0.10 Lakh and Rs. 0.10 Lakh respectively as per Table under Para 4.10.1.

The Insurance premium cost is given in the following Table:

SL No	Particulars	Insurance Premium					
		As Proposed			As Admitted		
		2014-15	2015-16	2016-17	2014-15	2015-16	2016-17

2	Distribution System	41.90	49.05	55.19	25.91	27.90	29.90
3	Total	41.99	49.15	55.31	26.00	28.00	30.00

However, as per our computation based on Admitted figure for FY 13-14, it should be as follows:

	2014-15	2015-16	2016-17
DPS 12 MW	0.09	0.10	0.11
Insurance for Distribution system	26.44	28.70	31.14
Total Insurance premium	26.53	28.79	31.25

Using 8.53% Escalation factor as per Annexure - 4 B, Table – 2".

Commission's observation:

The Insurance premium computed and admitted as per Annexure – 4B to the tariff order for the years 2014 – 2015, 2015 – 2016 and 2016 – 2017 are in totality for both generation and distribution functions. The admitted amount of insurance premium was, however,

*segregated for generation and distribution function in the table below paragraph 4.10.1.
Thus, the submission of IPCL is not considered.*

- 6.0 In consequence of amendment in expenditure under the heads power purchase cost, taxes on income / profit and ROE as explained in preceding paragraphs above, the interest on working capital needs to be amended. Accordingly, the paragraphs 4.14.3, 4.14.4 and Annexure – 4C of the tariff order dated 21.07.2016 have been amended.

- 9.0 This order issues in amendment to the tariff order dated 21.07.2016 in case no. The average rate of power purchase from DVC, WBSEDCL and WBGEDCL for the years 2014 – 15 is at Rs. 4.32/ kWh, Rs. 5.70/ kWh and Rs. 5.00/ kWh respectively as per the information furnished by IPCL through their letter dated 16.12.2015. The Commission, however, admits the average rate per unit of power purchase from WBGEDCL at the rate as proposed by IPCL.

In their petition, IPCL has submitted that the cost of power purchase from DVC for the years 2014 – 2015, 2015 – 2016 and 2016 – 2017 are computed with escalation of 7% on the basis of cost incurred for 2013 – 2014. It is also submitted that as per bill received from DVC for the first half of 2013 – 2014, the cost per unit is Rs. 4.40. The rate of power sale by DVC to IPCL has not been determined in the tariff order of DVC as no such proposal was made in the tariff petition of DVC. The Commission decides that the rate of power purchased by IPCL from DVC for the years 2014 – 2015, 2015 – 2016 and 2016 – 2017 shall be same as the rate at which DVC claimed the power purchase bills during the period 2014 – 2015 and 2015 – 2016 prior to issue of the tariff order for DVC for the year 2014 – 2015 and 2015 – 2016. The escalation @ 7% in power purchase rate as proposed by IPCL has not been considered by the Commission. Any FCA / FPPCA / MVCA claimed by DVC in any month shall be adjusted through the MVCA to be claimed by IPCL for the respective months.

The Commission, however, considers the power purchase rate of IPCL from WBSEDCL as admitted in the tariff order dated 04.03.2015 in respect of WBSEDCL for the years
